Performance-Based Logistics Toolkit

Logistics Community of Practice (LOG CoP)

<https://acc.dau.mil/log>

Aligned with current OSD policy and guidance (Defense Acquisition Guidebook, Chapter 5)

What Is It?

The Performance-Based Logistics (PBL) Toolkit provides one-stop access to all of the PBL implementation information that DAU has developed and compiled in an easy-to-use framework.

Who Should Use It?

The PBL Toolkit is designed to guide Program and Logistics Managers through a step-by-step process to support the design and implementation of PBL strategies.

Why Use It?

- Facilitates the development of PBL strategies
- Aligned with current OSD policy and guidance
- Tightly integrated with the Logistics CoP (<https://acc.dau.mil/log>)
- Web-based and available 24/7
- Quick access to any PBL implementation activity
- Integrates relevant content to support each process step
- Includes a comprehensive PBL reference library
- Interactive: users can participate in discussions and make contributions

How Does It Work?

Based on the 12-step process model, the toolkit addresses the critical elements of developing a PBL strategy. The toolkit provides an explanation of each element, along with the desired output of each step, and links to relevant supporting source material, such as policy, guidance, examples, etc.

Where Is It?

You can access the PBL Toolkit at <https://acc.dau.mil/pbltoolkit>.

Based on the 12-step PBL process model, with content integrated and organized to support each process step
